

So, Guest, you want to be a master RNA Engineer.
Well I am just the VirtuaBot for you. With your
puzzle-solving skills and my encyclopedic
knowledge of RNA, we will be unstoppable.

First, the basics. Then, you will tackle the Three
Trials. From there... you could design RNAs that
defeat cancer or prove where life came from. The
sky is the limit. At least until you create space-faring
RNAs.

The three bonds are:

A-U

U-G

G-C

Paint one of each.

0 0 0

A U G C

Use any bonds to hold the stack together.

If you click on the buttons at the bottom of the palette (see arrows), you can **paint two colors at one time** onto stacks.

Use those buttons to solve this puzzle.
