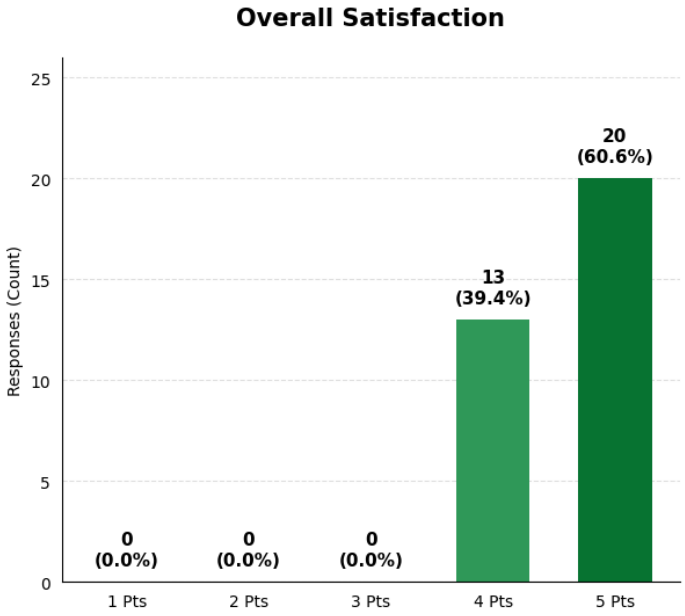
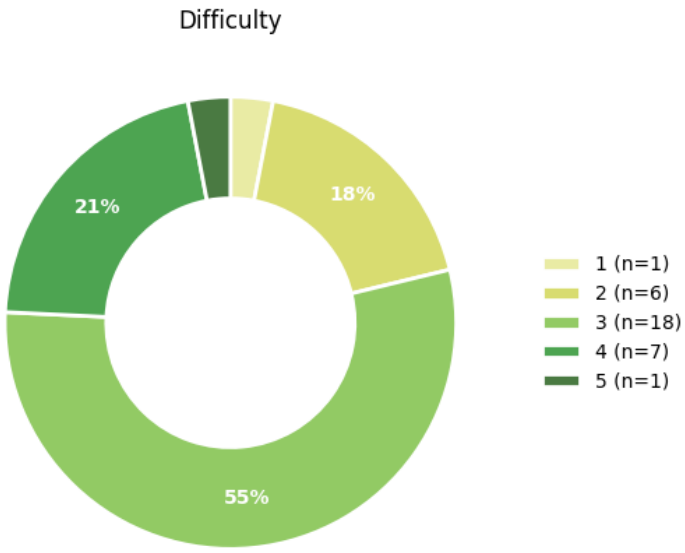
1. Satisfaction

Mean = 4.6



2. Difficulty

Mean = 3.03

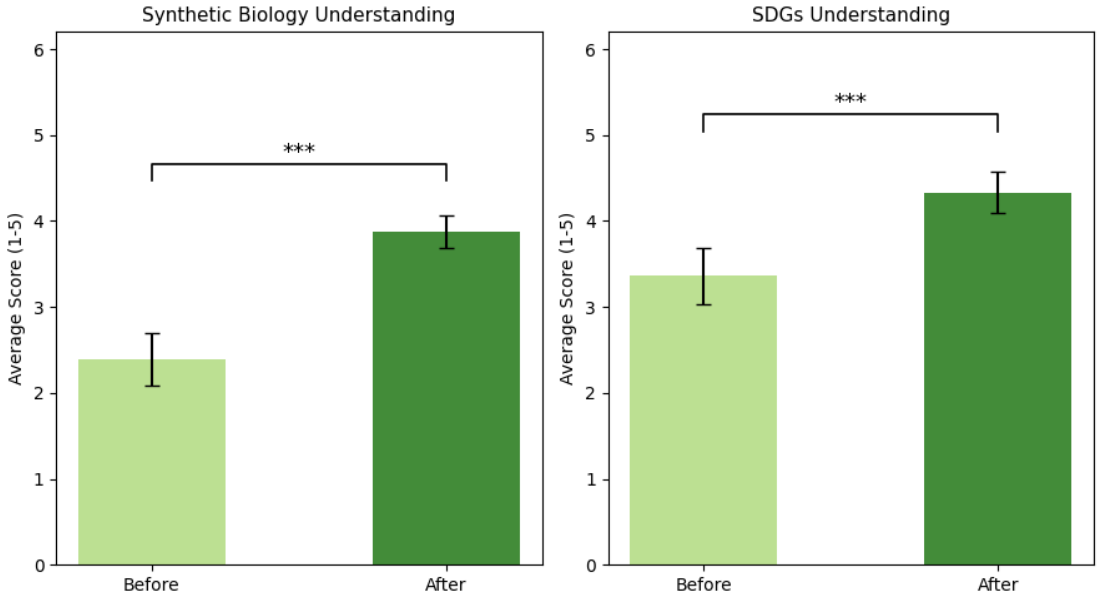


3. Understanding of Synthetic Biology and SDGs Before and After the Workshop

A paired-samples t-test showed statistically significant increases for both topics:

synthetic biology understanding (M = 2.39 → 3.88, p < .001, Cohen's d = 1.87)

SDGs understanding (M = 3.36 → 4.33, p < .001, Cohen's d = 1.10).



*** indicates p < .001.
