The lyrics of the iGEM Parody Song

PART 1 - DANCE MONKEY

we say oh my god we gotta do tis time

Take your pens, my dear, and make a good design

going through literature is needed by this time

And now we know what problems are faced world-wide

Ooh we try to, try to, try to get a plan on time

oh my i, i, i found something nice

that makes us, make us, make us wanna smile

And now we try to muse for just one-one more time

so we say

oh, oh, oh plan for us, plan for us, plan for us oh,oh,oh

then we re think again on on the things we did before

they say change for us, change for us, change for us

And when we're done we're made to do it all again

PART 2 - I DON'T CARE

Cause i dont care when I'm with bacteria

distinct colonies appear

now inoculate, blot, and validate antibody

under the chemiluminescent lights

bands from our bacteria

Ooh, ooh, ooh, ooh, ooh, ooh

Cause I don't care as long as I can engineer

cut a plasmid anywhere

with the insert, come and ligate it when you're ready

transformation makes it alright

When I'm with bacteria

Oo oo oo oo
