

Dear iGEM TU Eindhoven team,

On behalf of NU iGEM Kazakhstan, we sincerely thank you for being our speaker and taking part in iGEM Summer Camp 2023!

iGEM Summer Camp is a project that aims to increase science literacy and promote iGEM activities among high school students and provide participants with professional career guidance in the field of science and technology. It is initiated by the iGEM team of Nazarbayev University, which takes part in the international synthetic biology competition organized by the iGEM Foundation. The Summer Camp consisted of 5 intense days held from July 17 to 21, where 86 students were given online and offline lectures on the topics of Synthetic Biology, the Biology of Cancer: Introduction, Diagnostics, and Treatment, Application of Chemistry in Cancer Treatment, Bioethics, and Career Prospects in Biology and Medicine.

We were honored to have you as the speaker of iGEM Summer Camp and express gratitude for your invaluable contribution. Thank you for your insightful and useful lecture.

Sincerely,

iGEM NU\_Kazakhstan team 2023

Anel Umirbaeva,  
Team Lead of iGEM NU\_Kazakhstan team 2023
